

Maribyrnong Orchid Society

SEPTEMBER 2016 BULLETIN

www.mosorchids.org

Sarcochilus australis

Affiliated with the Australian Orchid Council
Incorporated in Victoria Reg No 1193Z

Next Meeting 13th September 2016

The Early 'New Growers' Group starts at 7.15pm. This group runs for approximately 30 minutes prior to the start of the monthly meeting. The group will be led by Anthony Scerri and Eric Wilde.

The pots'n'ferts and plant sales table operate at every meeting. See Tony Lopreiato for the supplies you are looking for, and then talk to Alex Wild about the sales plants.

Members may bring up to 10 orchids to be sold on the sales table each month. The society deducts 15% commission on the sale of all plants. Please note that all plants must be labelled correctly and state whether they are hot/cold growing and expected floral colour, if not in flower. Plants are also to be listed on a sales form, available from members on the Sales table, to be filled out by the selling member.

Guest Speaker

Our guest speaker for next month will be Mr André Cleghorn. His topic is "Orchid Photography". Thanks to all who participated in the Club Champion Cymbidium Night last month. Hopefully everyone enjoyed the night and learned a little more about Cymbidiums.

Maribyrnong Orchid Society Spring Show

Set up Friday 9th September
after 12.30pm

Open to the public 9am
Sat 10th Sept & Sun 11th
September

Maribyrnong
Community Centre,
Randall Street,
Maribyrnong

\$5 entry non members
Free for members - please bring
current membership card

Notice of Special General Meeting

of the Maribyrnong Orchid Society Inc
on Tuesday 13th of September at 7.45pm
(before the general meeting)

at the Maribyrnong Community Centre
Randall Street, Maribyrnong,
for the purpose of discussing and presenting life
memberships to
Peter and Wilma Carlesso.

If you cannot make it then you can appoint another
member as a proxy. See Pat, Elizabeth or Anthony for
proxy voting slips.

From the Editor

I understand that some members have been receiving their bulletins late (ie: not before the meeting). With the recent changes to Australia Post delivery schedules, the Maribyrnong Orchid Society committee is endeavouring to come up with our own policies to ensure the latest information can be included in the bulletin and then mailed out so that it reaches you before the meeting. This means some very tight deadlines for us all. Please note that this only affects Australia Post mail, not email. If you or a family member has an email we can send the bulletin in this way. As a cost and time effective method of delivery, please consider email.

thành viên thân mến, thư tin tức của chúng tôi đã được phân phối vào cuối bởi Australia Post. nếu bạn hay gia đình có email, hãy cho chúng tôi biết, chúng tôi có thể gửi email cho bạn bản tin của bạn để ngăn chặn giao hàng trễ.

Supper

Margaret Gatt and Carmen Ellul are rostered to help out with supper for our September meeting. Stay a while after the meeting, relax and have a chat.

Our volunteers for next month, October, are Denise Colquhoun and Judy Marshall.

President Report September 2016

The Spring Show will be held on Friday 9th, Saturday 10th and Sunday 11th September 2016, at the Maribyrnong Community Centre. Once again we ask for your help to set up the display.

Members who wear their name badge and present their membership card for 2016, will receive FREE entry to the show.

If you would like the chance to win one of the two \$30.00 vouchers from the Pots and Ferts sales area, all you have to do is enter a flowering orchid in the Spring Show. The first voucher is given away to anyone that enters a plant in the show for the first time and the other is a draw from all the people that enter plants in the show. The winners will be drawn at the October Meeting. As Anthony said at the last meeting, give it a go, put a plant in the show. Without plants to show, we don't have a show.

The Plant Sales was on the 3 September 2016, this was the first time we've had this and hope you came down to have a look

I look forward to seeing you at the September meeting.
Happy growing,

Maria Malacria
President

FROM THE COMMITTEE August 2016

The year is rushing by us and in no time it will be Christmas. Yes it will be on us before we know it. A good time to mention the clubs' Christmas dinner on the 13th December at 6.00pm. Cost for members will be \$24 and non-members \$26. Wilma will be taking bookings at the next meeting. If you have any special dietary requirements please let Wilma know when you book.

Don't forget the pop up sale on the 3rd of September at the Footscray Park Bowling Club, although by the time you get your Bulletin it will probably be over. Thank you to Australia Post.

Members please note that when you have tea or coffee it would be appreciated if you could stay in the kitchen area on the lino and not take your drinks out on to the parquet floor.

Congratulations to Mila Jurjevic for taking up the mantle as Hostess. I am sure that she will do a fabulous job. Look for the lady with the green hostess badge and say hello.

Don't forget our Spring show on the 10th and 11th of September. Help is always needed for the setting up on Friday.

Well that is it for this month. Short and sweet.

Will catch up next month.

Bye for now.
Elizabeth.

Show Coordinator's Report

Maribyrnong Orchid Society Spring Show
Saturday 10 & Sunday 11 September 2016

Our next Show will be the Spring Show and it will be held at the Maribyrnong Community Centre on Saturday 10 and Sunday 11 September. Yes, your club will be requiring help over the weekend and to set up on the Friday 9 September, after 12.30pm. Unfortunately, we will not be able to set up the sales area till after 5.30pm on Friday night. If I could get some help at this time, it would be gratefully appreciated. Yes, **you will still be able to bring in your sales plants after 3.30pm as usual.** There will be a number of jobs over the weekend that the club will require help with as well, on Saturday morning between 9.00am and 12.00noon. After 4pm on Sunday, when the show has finished, when we are all tired and most people have collected their plants and are on their way home, we have to clean up the hall. Many hands makes light work, so, if you could help at any time on Friday, Saturday morning or over the weekend, it would be very much appreciated.

If members require a stand at the show, please contact me so I can allocate a position in the hall for you.

Any members that require sales tickets for the show please ring Elizabeth on 03 9689 1142, as the September meeting is after the show.

Please note that on the Friday of the show no plants are permitted in the hall till after 1.30pm, and that sales plants will still be permitted into the sales area after 3.30pm. **Please note that we will not be selling any plants on Friday afternoon.**

Members will still receive free entry by showing their name badge and their 2016 membership ticket at the door, when they are entering the show.

I look forward to see you all at our Spring Show and the September meeting.

Anthony Scerri
Show Coordinator

Seedling Competition Report

I am very pleased to report the number of seedlings being bought back to the meetings is on the increase. This month we had 36 seedlings which is 3 more than in the previous month of July. I would like to thank Brianna and Kristina for stepping in for me in my absence and I was informed all the seedlings are growing well and looking great.

The winner of "seedling of the month" was Kristina. Was that Karma for helping out? Congratulations Kristina. Remember, keep bringing your seedlings in to the meetings. Only 3 meetings left for this year before our big Christmas breakup. Amazing how quickly the year has gone.

Maureen

The Pop-Up Orchid and Related Plants Sale Saturday September 3rd - Tony Lopreiato

Hi members. The 3rd of September is quickly approaching and I have had a group of members already book their sales stall at the Footscray Park Bowls Club. If you cannot commit to a stall and still want to sell plants the second option is to put plants on the club stall. Tickets for this table can be obtained from Elizabeth Walker (our treasurer).

I have already had some lovely members volunteer to help out on the day and still need people to help out with the club sales table and assist Anthony with the barbeque. So please come and see me if you can help out.

Just to recall details **Saturday September 3rd** as it does not clash with any other metropolitan orchid show. We are at **Footscray Park Bowls Club as a venue** and looking to hold it **between 9:00 am and 4:00pm**.

To be more precise: **Setup 9-10am Sales 10-3:30pm Pack up 3:30-4:00pm Go Home 4:00pm**

There will be no limit on the number of plants you can sell.

I am intending to set up two types of stands.

Growers can set up their own stand (a 2m x 1m table space) and sell as many plants as they want in that space for a donation of **\$50 per table to MOS**. If we have to supply the table then there will be an **extra cost of \$20 per table for table hire**. Growers will be expected to sit with their stand for security and spruik and sell their own plants.

There will also be a club stand which will run much the same as we do our normal sales at our shows. On this stand all plants will be ticketed and plants will be sold by the club less 15% commission.

Maribyrnong Orchid Society will not be paying for any plants that go missing.

I am intending for us all to be undercover and indoors (in case of rain) but depending on the response we get for the day and weather permitting there may be some stands being set up under the veranda.

There will be a barbeque set up for the day so lunch or snags can be purchased for \$2.50 if needed. I am informed the bar will be open on the day.

Tea and coffee facilities will also be provided.

If you don't have many plants to sell, may I recommend joining up with other members to set up a stand and share any costs.

Members, here is an opportunity to be involved with something a little different. It is an opportunity to reduce your collection of excess plants without the restrictions of a show and hopefully make some money for yourself as well as the society.

As I have mentioned I see this day as being a fund raiser as well as an opportunity for members to get together. If you are not interested in buying plants then come in for a beverage and one of Anthony's barbeque snags/sausages. Bring a friend, bring a neighbour. Entry is free and there should be plenty of parking available.

With your support this could be a fun day!

For any enquiries and booking of stands call Tony on 0425 771 930.

Spring Show Documents

The documents for the Spring Show are available from Dropbox through our Facebook page for anyone who would like to access them in that way.

www.facebook.com/MaribyrnongOrchidSociety

You do not need to have a personal Facebook account or a Dropbox account to access these documents.

Or, if you are receiving this bulletin via email, you can click on this link:

<https://www.dropbox.com/sh/s7dytqmpcuaagpp/AAA8IAIIV7KIDPkRB9iqpnacia?dl=0>

As this is new to the club, if you have any feedback about this, I would be interested to hear.

Contact Jenny on 0418 135 819 or email me on jenny.dark@darteks.com.au

The documents can also be accessed through the website

Facebook

Keep up with all the club news by visiting and liking us on Facebook. While you are there check out the many interesting orchid groups.

NEW WEBSITE ADDRESS

The new website address is:

<http://www.mosorchids.org>

Please make sure you change your favorites or bookmarks.

Show documents and other information is available through the website so please go have a look soon.

Christmas Dinner

**Randall Street, Maribyrnong
Tuesday 13th December 2016
Start Time: 6.00pm**

**Cost: members \$24.00
Non-members \$26.00**

**Please purchase tickets at the
September meeting**

**Bring your own nibbles,
beverages and glasses, cups, etc.
No reserved tables.**

MY EXPERIENCE WITH THE PROCESSES OF CREATING AND DEVELOPING A HYBRID DIURIS - by Keith Stringer

]

My objective was to cross two species of diuris: *Diuris sulphurea* and *Diuris orientis*, to create a more attractive plant by introducing stronger brown tonings of *D. sulphurea* to the *D. orientis* flower.

The cross was observed in natural surroundings on a recent ANOS (Vic) field excursion and in a photo shown to me by Neil Anderton.

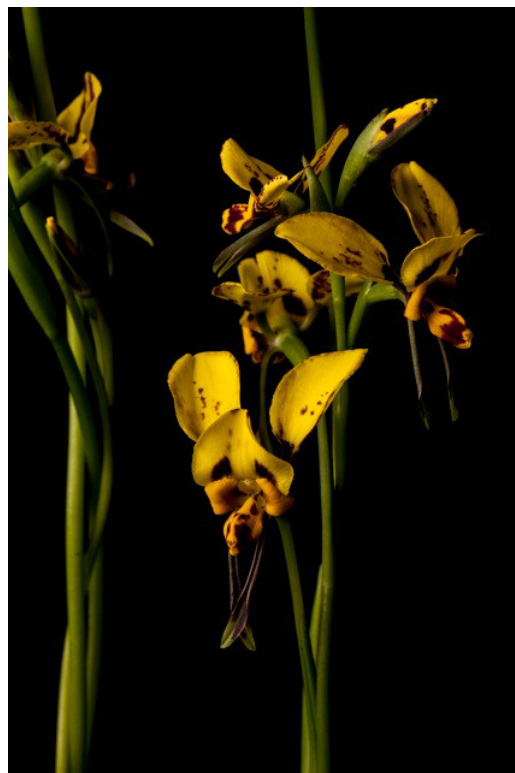

The procedures were completed over a four year period from pollination to a successful show exhibit.

The time line of this hybrid creation is as follows:

- Pollination was completed in October, 2011.
- Seed was collected in December, 2011
- Seed was then sown into flasks on 4th February, 2012.
- Seedlings were replated on 7th July, 2012
- The small tubers were deflasked in March, 2013.
- The first flowering was in September, 2014 with several strong plants, but only one flowered.
- The flowering in September 2015 was quite spectacular, being awarded "Best Native Terrestrial hybrid" at the A N O S (Vic) Spring Show.

The result of this hybridization produced stronger plants that were approximately 25% larger than the parent plants and flowers that were also 25% larger than the parents'.

The hybrid had extra brown markings on the flowers but not to the extent desired.

Pollination process.

The flowers were pollinated by using a sharp tooth pick to remove the pollinea from the selected flower of each plant. The pollinea was then placed on the sticky pad at the inside base of the flower of the other plant species. The pollination was done both ways: *D. sulphurea* to *D. orientis* and the reverse.

The flowers that had been successfully pollinated shrivelled after a few days and the seed pods began to develop.

Seed collection.

To collect the seed I observed my plants until the seed pods developed strong ribs as they matured. They darkened slightly in colour, firmed to touch, and had the appearance of being brittle. I removed the pods from the plant and placed each of them in a paper envelope and placed them on a sunny window ledge to completely dry and to dehisce. Seed was then cleaned from the husk and kept in the refrigerator until being sown in flasks

Sowing the seed.

All seeding activity is processed under sterilized conditions, in a lamina flow cabinet. This process is accessible to ANOS (Vic) members at the Terrestrial Seed Group monthly meeting.

I commenced the process by rinsing the seed in a 10% bleach solution {White King} for 8 minutes to remove any contaminants that may exist.

Seed is then rinsed in sterile water to remove bleach and then sown in small flasks by spreading small amounts of seed over an agar based media purchased from Western Orchids. The flasks are sealed to prevent contamination and stored in a dark cupboard at 18 to 20 C, until germination takes place. When the plants are showing green shoots, the flasks are transferred to a light cabinet for further development and growth.

As there is usually a lot of replating to be done, this is a good time to share flasks with other members of the group. When seedlings have grown to approximately 15 to 20 millimetres we replate them into larger flasks, reducing the number of plants to about 20 per flask, and return them to the light cabinet for future growth and development of tubers. After a period of 6 to 7 months, tubers were obvious in the flasks.

Deflasking

From experience I know that the period after deflasking is when most plants die, thus I take great care when deflasking and with care of the plants after deflasking. Care is taken not to damage the small plants and tubers when transferring to pots.

I like to deflask when the existing shade house plants begin their growing cycle (February/ March).

I deflask into a suitable terrestrial potting mix with some added leaf mould and place it in a reasonably bright area protected from the elements and keep it moist but not wet.

To deflask the tubers/plants I lift the tubers from the agar with long tweezers without damaging the plants. I then brush any excess growing media from the tubers.

Once established I grow the plants in a bright shade house with a solid roof and a layer of shade cloth added. As diuris plants grow and flower better if they are not disturbed each year, I work on a cycle of repotting each fourth year.

When potting *Diuris orientis* tubers, which are long and thin, (referred to as spaghetti tubers) I use a 200 ml diameter pot. I plant six to eight tubers horizontally, as they may grow from both ends of the tuber, at a depth of approximately 50 millimetres. This depth is chosen to give stability of the plant in its pot. The larger pot gives the tubers room to multiply and bunch up in the pot over the next four years.

The tubers of the hybrid plants are similar to those of *D. orientis* although they are not as long due to the influence of *D. sulphurea* which has a shorter and thicker tuber.

Whilst I did not achieve the level of brown markings that I had hoped for, I will further develop this hybrid by pollinating some *D. orientis* flowers with another *D. Sulphurea* in an endeavor to gain a more intense colouring. I would also like to hybridize some other *Diuris* with *D. drummondii* with the aim of producing a taller more attractively marked plant.

A bit of background about me!

My name is Keith Stringer and I had been growing orchids of various types for 20 years. After I joined The Australian Native Orchid Society, Victorian Group, at the start of 2007 I developed a passion for the challenge of growing terrestrials from seed for which I have some success and lots of enjoyment. Learning how to pollinate and then grow various species from seed is very rewarding. I found that I greatly enjoy growing diuris. Thus arose the personal challenge for me to create a quality diuris hybrid.

I am also a member of the Maribyrnong Orchid Society where I have successfully exhibited orchids other than Australian Natives.

Bulletin Contributions

If you would like to contribute, help is available to write or proof read articles. If you have suggestions and contributions for the bulletin content please contact mosbulletin@gmail.com or phone 03 9748 7345.

Please note that the BULLETIN contribution deadline is the 3rd Thursday of the month

Bulletin Delivery

If, for some reason, you do not receive your bulletin in the week before the meeting, or your bulletin does not arrive by your chosen method (post or email) please contact Julianne Diwell, the society Membership Secretary, at one of the meetings, on 0419 112 377 or email mosmembership@bigpond.com

Bulletin by Email

Should you decide to have your bulletin emailed, please see Julianne Diwell, the society Membership Secretary, at one of the meetings, or email mosmembership@bigpond.com

Email saves the club money on postage costs, and we help save the trees if we don't use so much paper printing unnecessary copies. **Please think before you print.**
